The Revision in a Nutshell series is designed to complement learning and revision that you have undertaken in class. Please check with your teachers that these resources are relevant to you. You can find the series at www.parentforumscotland.org

Specimen Paper and Past Papers

The SQA Specimen Question Paper and marking instructions for National 5 Mathematics:

[Paper 1](#), [Paper 2](#) and [Formulae List](#)

After completing the SQA Specimen Question Paper (exam) or any past paper questions, ensure that you look at the marking instructions as these often contain course content and they will help you to improve your exam technique. National 5 Question Papers differ from past papers. Ensure that you familiarise yourself with the Specimen Paper: this is what your exam will look like.

Past Papers

Useful SQA past paper questions are listed and organised by topic with guidance notes [here](#). For direct links to past papers, click on the year (ie click on '2013') in the table below where you will find questions relevant to National 5 Mathematics. Some topics are new for National 5 and therefore do not have past questions; be sure to revise all of the topics. Marking instructions for past papers can be accessed in the column 'Answers'.
